

Seed Potatoes

Grow your own...

MAGIC MOLLY:

(Fingerling) Purple flesh and skin. Mid-season maturity. Great storage capabilities and keeps its color when cooked. 85 - 95 days to mature.

DARK RED NORCHI:

Red skin, white flesh. Great for mashing and baking.

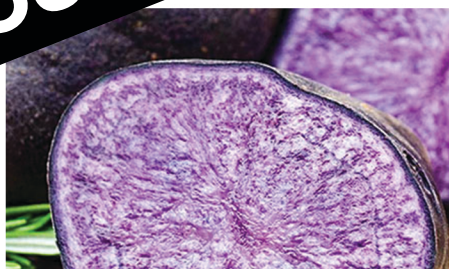

TUKON GOLD:

Yellow skin and flesh, a favorite year after year! Drought tolerant and great when baked or boiled.

RUSSET BURBANK:

A russet great for baking, boiling or frying. Disease resistant, and the potato that made Idaho famous.

PURPLE MAJESTY:

(Purple) Purple skin and flesh. Early to mid-season maturity. These are great for fresh eating and chip stock. 80 - 100 days to mature.
