NEW

FIREHAWK
HERBICIDE, RTU

10% OFF

FireHawk Bioherbicide RTU is a contact, non-selective weed control solution powered by nonanoic acid. It works only where the spray lands—breaking down the green, actively growing plant tissue it directly coats. Because it does not move through the plant or remain active in the soil, FireHawk provides fast, visible burn-down, giving homeowners precise control over where and how they treat.

*Valid through August 1-31, 2026.

*Applies to all sales: No special orders, limited to stock on hand. Cannot be combined with any other discounts or coupons. Not all items/styles are available online. Other exclusions may apply. See store for more details.
